

**Q1. Go through the 'About Us' page and make a note of 3 things from it that you can use to impress the HR when applying for a job here.**

- A proven track record of hitting deadlines, staying on budget and having a pro-active approach to client relations as a result, and experienced major growth year by year.
- You serve as one-stop service provider that supports you at every stage from product conceptualization to implementation and maintenance.
- You provide software development expertise along with industry-leading knowledge across a broad spectrum of product and technology disciplines.

**Q2. Find out the name of 2 HRs at LSN Software Services Private Limited and also, the name of the CEO?**

- Krishna Mohan Palacharla HR at LSN Software Services Private Limited
- Shiva Prasad Masina is Director at LSN SOFTWARE SERVICES PVT LTD

**Q3. Go through the various social media platforms and check out on which of these is LSN Software Services Private Limited active.**

- LinkedIn

**Q4. Prepare a cover letter to be sent to the hiring manager for a profile that you are interested in.**

- I Am Himakar Raju a student of Avanthi Institute of Engineering and Technology graduated with 6.72 CGPA. My primary interest lies in the field of Information Technology. I started programming in Python language, and developed an interest in web applications in particular. I may lack somewhat in industry experience but I am certain that my drive, dedication and passion to learn will make up for that and I will prove to be as good as any other applicant with the experience that you are looking for in your employee.

**Why do you want to join our organization?**

As your work spans across mobile apps, web development, e-commerce, custom app development, cloud services, and social network integration provides backbone for major client business. Your organization would provide a path for development of my career as I learn more from the work to help the organization to grow more

**What are your expectations from this job?**

- My primary expectation is that I would get to learn how things work in a reputed organization like yours I hope to learn about the entire product development cycle from ideation to launch. Sense of ownership is important to me and hence I hope to get the creative freedom to propose and implement new ideas

**If you were offered a similar job with another organization with higher pay, would you leave us?**

- My primary objective is to learn better here than anywhere else. So, unless there is a huge gap between salaries offered in this company vs. another, I don't see a reason why I would want to switch.

**If you were to join us, what is the one thing you would like to change about the company?**

- While browsing through the Company's website, I saw there was delay to load the page properly where a user can leave the website due to wait time the page requires. I feel that may be one improvement opportunity. Also, I notice that the company is not very active on Twitter and I wonder if there is an opportunity, we may be missing there which I would want to fix.
